

North Carolina State Crime Laboratory Destruction of Evidence

Clandestine Laboratory Evidence (Hazardous Materials):

The Item(s) listed below have been destroyed in accordance with the Administrative Policy System of the Drug Chemistry Section, Disposition of Clandestine Laboratory Evidence. This document will serve to meet these requirements and will be stored in the case record object repository.

Toxicology Evidence:

The cases listed below have been destroyed in accordance with the Administrative Policy System of the Drug Chemistry Section, Disposition of Toxicology Evidence. This document will serve to meet these requirements and will be stored in FA. If multiple cases are listed, it will be saved in the section's object repository with a file name beginning with "DSTR", the date the evidence was destroyed (in yyymmdd format) and the initials of the person destroying the evidence attached (no spaces). If only one case is listed on the form it will be stored in the case's object repository.

Proficiency Samples:

The proficiency samples listed below have been destroyed in accordance with the Administrative Policies of the Drug Chemistry Section, Destruction of Drug Chemistry and Toxicology Proficiency Samples. This document will serve to meet these requirements and will be stored in the case or case record object repository.

Lab Case Number	Item	Lab Case Number	Item	Lab Case Number	Item	Lab Case Number	Item

(For Toxicology Evidence: Unless otherwise noted, all items are item #1)
