DNA Workbook Tab Colors
Green = you put stuff here
Blue = to your case file

If a
sam
imp

row is inserted, another row in that batch must be deleted. Limit 18 nples per extraction set. You MUST click on the green box **for each**)ort before clicking "PLIMS Import."

Rules:
(1) Max 6 batches, max 18 sar

(2) Every sample must have a
that is 2 or more characters lo

(3) Put "-RB" after your DNA #

(4) All samples in each batch
continuous - no blank rows w

(5) Characters disallowed by t
allowed here (e.g. / \ : * " < >

(6) For QC or PT samples that
your extraction add a row wh
them to be and then delete th
of rows from the bottom of th
block.
