RESEARCH ACTIVITIES

Current Projects

- Recidivism Among Child Pornography Offenders. Conducting a meta-analysis on future offending and recidivism among men charged with possession of child pornography offenses.
- URIST Opinions for Cognitive Impairment. Reviewing unrestorably incompetent opinions on individuals who have a cognitive impairment, and determining factors clinician consider and include in their conclusions.
- Assessing Comprehension of AACN Proposed Classifications. Conducting a survey of patients, doctors, and judges to determine how easily understood recently proposed score descriptions are in a neuropsychological report to non-psychologists.

09/2015-09/2020

Graduate Research Assistant, Fordham University, New York, NY

PIs: Barry Rosenfeld, Ph.D, ABPP-F

- Neuropsychological Dysfunction in Pedophilic Disorder, *Project lead*. Conducted neuropsychological testing on 50 men with sexual offenders to assess for patterns associated with pedophilic disorder. Developed test battery and research protocol. Oversaw recruitment and testing at two private practice clinics. Trained and supervised two graduate research assistants. Examined group differences and conducted a cluster analysis in SPSS. Advised master and doctoral students in related projects.
- MMPI-2 and MMPI-2-RF Meta-Analysis, *Project co-lead*. Analysis of validity scales, to assess the ability to detect malingering, minimization, coaching, and feigned neuropsychological impairment. Developed study, data collection, and analysis approach. Recruited, trained, and supervised five undergraduate research assistants. Led a team of two graduate research assistants. Calculated and compared scale effect sizes in R using data extracted from 151 related studies.
- Clinician Risk Assessment of Passive Suicidal Ideation, *Project lead*. Examined how clinicians assess thoughts and threats of harm to others, themselves, and the inability to care for oneself, including a thesis research project which entailed soliciting 100 crisis clinicians across the country to complete an online, vignette based, survey.
- Predictive Validity of Various Risk Assessment Tools. Examined various risk assessment tools, such as the HCR-20^{v3}, the VRAG-R, and the FRST, on predicting inpatient violence using an existing data set.
- Civil Commitment Case Law Review. Conducted a review regarding the appropriateness of civil commitment for child pornography offenders.

07/2010-07/2012

Research Associate, Boston Medical Center, Boston, MA

PIs: Ruth Rose-Jacobs, Sc.D and Deborah Frank, M.D

- Conducted neuropsychological testing and structured interviews as part of an NIH-NIDA grant funded, longitudinal study on the effects of in utero cocaine, tobacco, and alcohol exposure on cognitive functioning and behavior.
- Assisted in the development and modification of protocols, and data analysis.

01/2009-07/2015

Graduate Research Assistant, Northeastern University, Boston, MA

PI: *Carlos Cuevas, Ph.D*

- NIJ grant funded study examining the effects of interpersonal violence on PTSD pathology in Latino women.
- Analyzed data from a national sample of 2,000 Latino women in SPSS, conducted literature reviews, collaborated on manuscript writing, and presentations.
