CLINICAL / CONSULTATIVE EXPERIENCE

Independent Practice | Raleigh, NC

Aug. 2016-Present

Independent forensic practice offering comprehensive forensic evaluation and consultation services, with emphasis on the assessment criminal competencies, mental state defenses, pre-sentencing, capital mitigation, juvenile transfer, and risk of violent or sex offense recidivism. Credentialed by North Carolina Department of Health and Human Services to conduct juvenile capacity evaluations under Session Law 2023-114. Additionally conducts forensic evaluations in the context of civil litigation, to include workers compensation and psychological injury claims. Limited clinical practice offering evidenced-based psychotherapy to older adolescents and adults.

Served on a panel of experts tasked with reviewing assessment-related policies, processes, and procedures of the Sand Ridge Treatment Center - Sexually Violent Persons Program, in order to provide guidance and recommendations to ensure work products and policies adhere to statutory mandates, ethical standards and best practice guidelines.

Deputy Chief Psychologist

Federal Correctional Complex | Butner, North Carolina

Dec. 2013-Aug. 2016

Duties involved management of multiple functions within the Psychology Services Department, including administrative oversight of up to twelve doctoral-level forensic psychologists and one psychology technician, as well as supervision of: (1) court-ordered forensic evaluation services of federal pre-trial detainees; (2) the development of a therapeutic treatment program and provision of services for over 100 civilly committed forensic patients; (3) behavioral health services for medically compromised inmates; (4) intake screenings, crisis management, and psychotherapy services for sentenced inmates; and, (5) suicide prevention programs. Other responsibilities involved collaboration with correctional services, medical, and nursing staff to manage mental health restricted housing units; participation in monthly Department Head and Leadership meetings; participating in personnel selection reviews and panel interviews; and, serving as Acting Complex Chief Psychologist and Institution Duty Officer. Also developed an online Operations Reference Manual for psychology staff, including hyperlinks to routine policies and procedures, standard forms, legal statutes, and reference documents. Co-developed FCC Butner Complex Supplements for Suicide Prevention as well as Seclusion and Restraints, which included negotiation with three Local Unions. Served as Reviewer in Charge (RIC) for Psychology Services Operational Review for complex of five correctional institutions in 2015. Provided supervision and seminar trainings for pre-doctoral psychology interns as well as annual and semi-annual refresher staff training on topics of suicide prevention, EAP, and PREA/sexual abuse prevention. Other training initiatives included coordination of APA continuing education workshops for psychologists in the complex and in the local community on forensic topics, as well as regular “lunch and learn” multi-disciplinary forensic case conferences.

Forensic Psychologist

Federal Correctional Complex | Butner, North Carolina

Dec. 2006-Dec. 2013

Primary Duties were to perform comprehensive forensic evaluations of pre-trial/pre-sentenced detainees and civilly committed inpatients on issues of competency, sanity, and violence risk, and to provide expert testimony as needed. Collateral responsibilities included: psychological assessment and treatment of pre-trial, pre-sentenced, and sentenced inmates; intake mental health assessment of sentenced inmates; supervision and seminar trainings for pre-doctoral psychology interns; annual and semi-annual refresher staff training on topics of suicide prevention, EAP, PREA/sexual abuse prevention, and communication skills; planning and implementation of quarterly mock suicide drills; Crisis Support Team; member of BUX Institution Review Board; as well as training, implementation, and monitoring of an inmate suicide watch program. Other notable projects included the development of a treatment planning system, an institutional violence alert form for custodial staff, an on-line suicide

prevention training program, and the coordination of multidisciplinary continuing education training on the DSM-5.

Contract Psychologist

North Carolina Correctional Institution for Women / Raleigh Correctional Institution for Women | Raleigh, North Carolina

Dec. 2005-Dec. 2006

Duties involved individual and group psychotherapy for incarcerated females (est. 90% time) at two correctional institutions as well as brief mental health assessments to determine need for psychiatry services (est. 5% time). In addition to treatment selection and implementation, duties involve the administrative management of an active caseload of approximately 50 inmates across the two institutions. As the only mental health provider at RCCW, additional responsibilities included identifying new transfers in need of services and monitoring for treatment compliance.

Forensic Psychologist

Dorothea Dix Hospital | Raleigh, North Carolina

Nov. 2005-Dec. 2006

Conducted outpatient and inpatient forensic evaluations of adult and juvenile defendants addressing issues of capacity, mental state, and eligibility for civil commitment. Other clinical responsibilities included co-facilitation and co-development of psychoeducational group interventions, individual competency restoration training, and supervision of forensic evaluations conducted by a pre-doctoral psychology intern. Administrative tasks included assistance with pre-doctoral internship selection, utilization review committee, and attendance in monthly psychology management meetings.

SUPERVISED CLINICAL EXPERIENCE

Postdoctoral Fellow in Forensic Psychology

Dorthea Dix Hospital | Raleigh, NC

Sep. 2004-Aug. 2005

Duties involved psychological assessments (est. 10% time) and comprehensive forensic evaluations of adult and juvenile defendants (est. 80% time). Additional responsibilities included individual competency restoration training as well as supervision of forensic evaluations conducted by a pre-doctoral psychology intern. Training in relevant psycho-legal issues and expert testimony was also involved. *Supervised by* Mark Hazelrigg, PhD, ABPP.

Predoxal Clinical Internship (APA Accredited)

Department of Psychiatry, University of North Carolina | Chapel Hill, North Carolina
Federal Correctional Complex | Butner, North Carolina

Sept. 2003-Aug. 2004

Major Rotation: Federal Medical Center | Butner, North Carolina

Duties involved the performance of comprehensive forensic evaluations of pre-trial and pre-sentenced federal detainees. Case findings were presented to a multidisciplinary team and

summarized in reports submitted to United States federal courts. Additional responsibilities included preparation of behavior plan reports, participation in risk assessment panels, and psychological testing. Training in relevant psycho-legal issues and expert testimony was also involved. *Supervised by* Edward “Rhett” Landis, PhD, ABPP (20hrs/week).

Minor Rotations:

Dorothea Dix Hospital | Raleigh North Carolina

Training experiences included diagnostic assessments of pretrial inpatients to assist in forensic evaluation, reevaluations of competency for inpatients committed as incompetent to proceed, and weekly attendance at multidisciplinary forensic case conferences. *Supervised by* David Hattem, PhD (8-10hrs/week, Jan. 200-Apr. 2004)

University of North Carolina Hospitals | Chapel Hill, North Carolina

- Center for Development and Learning, Forensic Consultation and Research. Training experience included review of archival, collateral, and clinical data collected from inmates appealing a death penalty conviction under Atkins. *Supervised by* Gregory Olley, PhD (2-4hrs/week Sept. 2003-Aug.2004)
- Crisis Emergency Services. As part of a multidisciplinary team, training experiences included intake assessment, crisis intervention, and disposition planning for persons presenting for evaluation at the hospital emergency room or walk-in clinic, as well as responding to telephone calls concerning psychiatric emergencies. *Supervised by* Julie McIntyre, LCSW (8hrs/week, Sept. 2003-Dec. 2003)
- Family Therapy Team. As part of a multidisciplinary outpatient treatment team, training experience involved observation and co-counseling of family clients. *Supervised by* Elisabeth Scott, LCSW (4hrs/week, May 2004-Aug.2004)
- Forensic Psychiatry Service. As part of a multidisciplinary team, training experiences included interviews and testing of adults who were court-ordered to undergo parental stability and/or custody evaluations. *Supervised by* Helen Brantley, PhD (8-10hrs/week, May 2004-Aug.2004)
- Heart and Lung Transplant Team. As part of a multidisciplinary team, training experiences involved inpatient and outpatient evaluations of transplant candidates as well as provision of counseling for post-op patients. *Supervised by* Eileen Burkner, PhD (4hrs/week, May 2004-Aug.2004)
- Eating Disorder Inpatient Unit. Training experiences included the provision of individual therapy services for the inpatient and day treatment eating disorder programs and co-leading an evidenced-based cognitive behavioral therapy group on the inpatient unit. *Supervised by* M. Dymek PhD (4hrs/week, May 2004-Aug.2004)

Florida State University – Crisis Management Unit | Tallahassee, Florida

Aug. 2000-Jun. 2003

Collaborated with FSU Police Department on an as-needed basis to intervene in psychiatric emergencies, specifically, crisis screening and intervention, referral to community agencies, and/or transportation to inpatient facility. *Supervised by* Joyce Carbonell, PhD (on-call)

Southwestern State Hospital | Thomasville, Georgia

Aug. 2001-Dec.2002

Primary responsibilities involved evaluations of competency, criminal responsibility, and/or sentencing evaluations of county jail detainees and re-evaluations of inpatients adjudicated incompetent to stand trial. Case findings were summarized in reports to the Georgia superior/state courts. Other clinical duties included acute care inpatient counseling and psychological assessments. *Supervised by* G. Leonard Bailey, PhD (20hrs/week)

Assistant Director/Senior Therapist

Florida State University Psychology Clinic | Tallahassee, Florida

Aug. 2000-Aug.2001

Primary responsibilities involved the administrative management of this university-based outpatient clinic, as well as providing procedural and clinical assistance to up to seventeen junior therapists in training. Tasks included maintenance of a log of outpatients and applicants to clinic, case assignment and/or referral to community agencies, serving as liaison between therapists, director, and community agencies, performance and supervision of intake screening interviews, and preparation for weekly staffing meetings. Self-initiated undertakings included the development and maintenance of a client database for use in department research projects, a computerized client tracking system, and a procedures manual for the duties of the assistant director. *Supervised by* Thomas Joiner, PhD (20hrs/week).

Florida State University – Psychology Clinic | Tallahassee, Florida

Aug. 1998-Aug.2001

Individual therapy and assessments of adults, adolescents, and children, as well as the co-development and co-leadership of a process focus group for persons with personality disorders or significant interpersonal deficits. *Supervised by* T. Joiner, PhD (98-99), D. Kerr, PhD (99-00), N. Sachs-Ericsson, PhD (00-01), and E. Berler, PhD (00-01). (10-20hrs/week)

Easter Seals of Tallahassee | Tallahassee, Florida

Jan. 2000-Aug.2000

Duties involved comprehensive assessment, diagnosis, and development of occupational and treatment recommendations for adults with physical, emotional, or developmental disabilities seeking vocational retraining or Social Security benefits. *Supervised by* Ellen Berler, PhD and Joyce Carbonell, PhD (10hrs/week)

Florida State Hospital, Forensic Unit | Chattahoochee, Florida

Sept.1999-Aug.2000

Responsibilities included individual counseling, assessments, and competency restoration for female forensic inpatients, as well as observation and performance of follow-up forensic evaluations of inpatients found incompetent to proceed to trial. Self-initiated projects included the development and implementation of a competency-restoration group for defendants with psychiatric disorders and intellectual disabilities, as well as an eight-week substance abuse program emphasizing psychoeducation and relapse prevention. *Supervised by* Ron Klein, PhD and Leslie Dellenbarger, PsyD (10hrs/wk).

Aug. 1998-Aug.1999

Conducted assessments of learning disorders in young adults, each involving administration and interpretation of a battery of intellectual, achievement, and cognitive measures, which were summarized in integrative reports with treatment recommendations. *Supervised by* Jack May, III, PhD (10hrs/week)

Liberty Behavioral Management | White Plains, New York

May 1996-May 1997

As an intake assessment coordinator, duties involve preliminary diagnostic screening and triage to a network of substance rehabilitation centers and psychiatric hospitals, as well as precertification of inpatient treatment with managed-care insurance providers. Self-initiated projects included the development of an intake policies and procedures manual. *Supervised by* Jerry Stybursky, CSW, CAC, NCAC, CEAP.

Arms Acres | Carmel, New York

June 1994-May 1996

As an admissions assistant, responsibilities involved the facilitation of inpatient admissions to the primary care detoxification unit of this substance rehabilitation center. *Supervised by* Jerry Stybursky, CSW, CAC, NCAC, CEAP.

UNIVERSITY TEACHING EXPERIENCE

Invited Lecturer

Nova Southeastern University | Fort Lauderdale, Florida

2022-Present

This semi-annual virtual seminar offers practical guidance for self-identified female graduate students pursuing careers in correctional or forensic psychology.

Adjunct Faculty

St. John's University – Postdoctoral Forensic Certificate Program | Queens, New York

2017-Present

Biannual training provides the legal, ethical, and practical framework for conducting criminal responsibility evaluations for doctoral level psychologists seeking to re-specialize in the area of forensic psychology.

Adjunct Faculty

Chicago School of Professional Psychology | Chicago, Illinois

2017

Eight-week online psychology ethics course for masters-level counseling psychology students.

Teaching Assistant

Florida State University Psychology Department | Tallahassee, Florida

Jan.2003-Apr. 2003

Jan. 2000-May 2000

This undergraduate course provided an introduction to concepts and methods of psychology experimentation by running simple studies, analyzing data, and interpreting results.

Teaching Assistant

Florida State University Psychology Department | Tallahassee, Florida

Jan. 2003-Apr.2003

This graduate-level course provided an introduction to, and practice with, the administration and interpretation of the Wechsler intelligence scales and the MMPI-2.

RESEARCH EXPERIENCE

Alcohol Studies Laboratory

Florida State University | Tallahassee, Florida

Aug.1997-Aug.2004

Dissertation: *Prediction of comorbid alcohol use disorders in schizophrenia using symptom components derived from the Positive and Negative Syndrome Scale.* Interview and archival data were collected from hospitalized psychiatric inpatients to investigate the mechanisms underlying the frequent comorbidity of schizophrenia and alcohol use disorders.

Master's Thesis: *The influence of extraversion on the role of operant learning in the augmentation of acute alcohol tolerance.* This experimental alcohol-challenge study was designed to investigate personality differences in acute behavioral alcohol tolerance.

Additional laboratory duties included weekly team discussions of journal manuscripts and NIH/NIAAA grant applications submitted for peer review, as well as to assist in the development of research projects for graduate student colleagues. Studies involved psychosocial aspects of alcohol use and their underlying brain processes.

Major Professor: Alan R. Lang, PhD

Neuropharmacology Laboratory

University of Connecticut | Storrs, Connecticut

Sept.1995-Dec.1996

Honors Thesis: *Effects of thioridazine on lever pressing and tacrine-induced vacuous jaw movements: Clinical implications for the treatment of schizophrenia.* This research project utilized an animal model to evaluate the effects of thioridazine on extrapyramidal symptoms. Laboratory duties involved animal (rats) maintenance and observation of ongoing research.

SELECT AWARDS / RECOGNITION

American Board of Professional Psychology, Forensic Specialty Award

2021

United States Attorneys Office, EDVA, Norfolk Division

Law Enforcement Public Service Award

2022
